2587 KC-31 St. Karangalan Vill. Manggahan Pasig City

WORK EXPERIENCE

Viyahe Ph / Monark

2024 - 2026

Associate Web Software Engineer

- Built and enhanced frontend features across web and desktop platforms.
- Resolved bugs to ensure reliable real-time player progress tracking.
- Implemented a “Creator Mode” feature**, allowing KOLs to toggle streaming-ready overlays and dynamically generated widgets that can be embedded as browser sources in streaming software.
- Optimized the CMS-like workflows in the Next.js web** by rebuilding them as structured, multi-step forms, improving usability and reducing errors.
- Integrated Sentry error monitoring across both the web and desktop app**, improving visibility into production errors and speeding up issue diagnosis.
- Built creative web interactions using GSAP**, implementing performant timeline-based animations, scroll-triggered effects, and dynamic UI transitions.
- Utilized agentic coding workflows with Claude (Claude Code)** to assist with debugging, feature planning, and iterative development.
- Collaborated with senior developers and designers within an Agile team, actively participating in sprint planning, daily stand-ups, and retrospectives.
- Used Git-based version control (AWS CodeCommit, Gitea), wrote and maintained tests, and gained exposure to CI/CD pipelines to support reliable releases.

Breddas Inc,

2023 - 2024

Web Developer

- Learned and applied web development fundamentals including HTML, CSS, JavaScript, and basic frontend architecture.
- Worked closely with a backend developer to integrate APIs, gaining practical understanding of client-server communication.

EDUCATION

Polytechnic University of the Philippines

2019 - 2023

BS in Computer Engineering

- Built mobile applications using React Native (Expo) as part of academic projects.
- Completed an IT internship at San Juan Schools Division Office, providing technical and administrative support.

SKILLS

React
React Native
Electron.Js
CI/CD pipelines
AWS
Git

LANGUAGE

English
Filipino
